Sedalco, Inc.

I am pleased to forward this letter of recommendation to you and to commend you on the service that you have provided to our firm over these past ten years. I can truly say that our firm has benefited by our association with you and all the fine team at HSH & D. As we have grown, you have been an integral part in the counsel of our leadership. We appreciate your honest and fair approach on all issues. It is for this reason that I believe our relationship with HSH & D has been successful because our philosophy of fairness and honesty is in alignment with yours.

I am equally proud of the fact that I have never seen you in the courthouse environment as we have mutually worked together to train our people to avoid litigation in lieu of the alternative.

Finally, I would be remiss in not thanking you and HSH & D for the countless pro bono hours that you have donated to the industry for training and representation on legislation that has benefited our industry and community.

Best Regards,
Tom Kader
President
